November 16, 2021

Dear Sanitary Sewer Customer,

Since the beginning of the COVID-19 pandemic in March 2020, the Town of Burns Harbor has voluntarily waived late penalties on delinquent sewer bills. We have also continued to suspend water shut-offs after the state mandated moratorium expired in August 2020. We felt that taking these measures would be helpful to our community and residents during extremely difficult times.

After careful consideration for those affected by the COVID-19 health emergency and the current economic environment, the Town of Burns Harbor will resume imposing late fees on delinquent sewer bills on December 16, 2021. We will also resume water shut-offs in January 2022.

We understand that you may be facing circumstances that are stretching financial resources, and we are here to assist you with arranging a plan to pay the balance of your bill over time. If you have an unresolved past due balance, please contact our office as soon as possible to make payment arrangements.

Sincerely,

Town of Burns Harbor Wastewater Utility
